

Golden Strand Condos

PO Box 1917, Kill Devil Hills, NC 27948

Welcome back to the Golden Strand during these unprecedented times. Our top concern is the safety of our owners, renters, employees and community.

Here at the Golden Strand we have established protocols as we prepare to welcome guests. We are taking the following measures to ensure your unit is disinfected and that we are adhering to CDC regulations and guidelines.

All employees will be wearing face masks and latex gloves when entering, cleaning, and leaving the units. Our cleaners will be using specific disinfecting cleaning products that are hospital-grade EPA-registered and kill 99.99% of germs.

We use sanitizer and disinfectant to clean all points of contact surfaces. Everything in bathrooms, all light switches, door knobs, remote controls, faucets, appliances, and thermostats.

We use disinfectant and sanitizer cleaner for linens, sofas, furniture, pillows, blankets, and comforters.

While your unit may be cleaned up to new COVID-19 requirements, as an extended precautionary measure, we always recommend performing your own measures. Wipe down all high points when entering your unit and wash dishes prior to use.

Please respect the 6 foot rule when using the beaches and other public areas.

Our goal is and will continue to be to provide a safe, welcoming, and clean environment for all of our guests.

We thank you for returning and hope you have a healthy and relaxing vacation.
